Enthusiastic Web Developer with a proven ability to deliver innovative frontend and backend solutions. Proficient in ReactJS, Node.js, and Java, with hands-on experience building high-performance solutions.

EXPERIENCE

Software Developer Trainee at Etelligens Technologies

May 2025 - Present

- Currently learning Go (Golang) to support backend development and system-level programming.
- Collaborating with team members to understand project requirements and contribute to clean, maintainable code.

Web Developer Intern at Bharti Airtel

April 2024 - June 2024

- Developed the frontend for "Cell Stack Matrix" Project using HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams to ensure design and functionality alignment.
- Gained experience in frontend development and teamwork in a fast-paced environment.

EDUCATION

- | | | |
|------------------------------|--|-----------|
| • B.Tech in CSE | A P J Abdul Kalam Technical University | (2021-25) |
| • 12th Standard (87%) | Aster Public School, Greater Noida | (2020-21) |
| • 10th Standard (86%) | Indian Convent School, New Delhi | (2018-19) |

PROJECTS

Rent Hive - A Car Rental Platform

Developed the car booking system for a rental platform, addressing booking errors and unauthorized listings through secure inventory management and seamless customer rentals.

- Technologies Used: ReactJS, NodeJS, Express, MongoDB, JWT
- Programming Languages: JavaScript

Supplier Management and Order Tracking System

Built a full-stack system to efficiently manage suppliers and track orders, streamlining operations through intuitive dashboards and secure data handling.

- Technologies Used: ReactJS, NodeJS, Express.js, MySQL, RESTful APIs
- Programming Languages: JavaScript, SQL

Automated Legal Document Review System

Created a legal document review platform to streamline analysis. Leveraged NLP and machine learning to identify key terms and potential risks in documents.

- Technologies Used: ReactJS, NodeJS, Python, NLP
- Programming Languages: JavaScript

SKILLS

- **Programming Languages:** Java, JavaScript, Python, SQL
- **Frameworks & Libraries:** ReactJS, Node.js, Express.js, Bootstrap
- **Other Skills:** Data Structures & Algorithms, Problem Solving, UI/UX Design, API Integration, Android Development

ACHIEVEMENTS

- **Cisco Networking Essentials:** Acquired core skills in network setup and security.
- **Java Training:** Strengthened Java programming and backend development.
- **Azure Training (ICT Academy):** Completed training on Azure AI services, including cloud-based AI models and tools for integrating machine learning into applications.
